

Mouhamadou Lamine Bara THIAW

☎ +33 7 88 88 23 63 @ mouhamadou.thiaw@polytechnique.edu

Graduate of École Polytechnique & Télécom Paris.

Education

ÉCOLE POLYTECHNIQUE

CYCLE INGÉNIEUR

POLYTECHNICIEN, BSC AND

MSC, APPLIED MATHEMATICS

📅 Sep 2021- Dec 2025 📍 Palaiseau, France

Computer science, Artificial Intelligence.

TELECOM PARIS

CYCLE INGÉNIEUR, MSc AI

📅 Sep 2024- Dec 2025 📍 Palaiseau, France

4th year of the curriculum of École Polytechnique (X - TELECOM)

Coursework

MAIN COURSES

Language Models and Structured Data, Computer vision, Reinforcement learning, Kernel machines, Programming with GPU, Machine and deep learning, Stochastic models and Monte Carlo methods, Speech Processing, Optimization and Control, Statistical Theory and Methods, Time series

Skills

• Python • Java • C/C++ • ROS • LINUX
• AWS • LangChain • LlamaIndex • PyTorch • Tensorflow • Docker

Languages

French: Bilingual, **English :**

Bilingual, **Spanish:** B1, **Wolof :** Mother tongue

Experience

AI ENGINEER INTERN

SKYPHER (YC W20)

📅 Sept 2025 – Mar 2026

📍 Paris, France

- Optimized RAG pipeline for security questionnaires, **boosting retrieval MRR by +8%**.
- Developed an **RLHF-based reranker** using user feedbacks.
- Managed end-to-end **production deployment** of the inference system.

RESEARCH ASSISTANT

TELECOM PARIS

📅 sept 2024 – July 2025

📍 Palaiseau, France

Worked on Contrastive Learning for Hypergraphs with Optimal Transport under the supervision of Jhony H. Giraldo for my last year research project.

AI RESEARCH INTERN

NATIXIS INVESTMENT MANAGERS

📅 Mar 2024 – Aug 2024

📍 Paris, France

- Built a **real-time LLM pipeline** to detect controversies and opportunities in news data, automating **investment signal generation**.
- Developed an **NLP-based expert detection system** on social media to identify Key Opinion Leaders for investment decisions support.

DATA SCIENTIST

SNCF RÉSEAU

📅 Jun 2023 – Sept 2023

📍 Paris, France

- Developed models to **link train delays to infrastructure incidents**, streamlining the incident tracking and reporting process.
- Engineered an **automated documentation system** for traffic events to improve data accuracy and operational reporting.

EDUCATOR

ETABLISSEMENT POUR L'INSERTION DANS L'EMPLOI (EPIDE)

📅 OCT 2021 – APR 2022

📍 Margny-lès-Compiègne, France

Internship in the context of the military and human training at École Polytechnique, working within an integration establishment supervised by the Ministry of Defense.

Projects

See my github page <https://github.com/momoth12>

Denosing diffusion probabilistic models, Conditional GANs, speech emotions detection, Knowledge base construction...

Activities/Honors

• PRESIDENT OF X-AFRIQUE, HEAD OF ACADEMICS OF BINET X-AI

• EXCELLENCE SCHOLARSHIP OF THE SENEGALESE GOVERNMENT
